SUMMARY

Proficient in translating the UI/UX Design wireframes to actual codes, creating user interfaces & integrating Front-End and Back-End aspects of applications while ensuring maximum stability. Proactive Data Analyst with strong research skills and ability to lead software application development projects from conception through delivery.

WORK EXPERIENCE

.NET Developer Intern
National Informatics Centre (NIC), Ministry of Home Affairs (MHA) - North Block

January 2024 – April 2024, North Block

- As a developer involved in design and developing Web Forms using ASP.NET and C#.
- All the user interface layers, web pages are created and integrated to maintain the performance of the data flow and data integrity using ASP.NET User Controls, Web Server Controls and ADO.NET.
- Implemented SQL for database management resulting in enhanced data retrieval speed.

Front-End Web Developer Intern
Wayspire

August 2023 – February 2024, Gurugram

- Collaborated with team to create user-friendly, interactive websites using a variety of front-end programming languages including JavaScript, HTML, CSS.
- Conceptualized, created and managed dynamic web pages for data display and entry using appropriate technologies (PHP, XAMPP, Node.js)
- Fetches, parses and formatted analytical data, and relayed it into React Components.

Junior Web Design Intern
Number Jack CO

August 2020 – October 2020, Remote

- Responsible for creating UI/UX Design of Graphic Card Website for Final Year Project of graduation using Web Technologies HTML, CSS and Bootstrap for Website Creation.

PROJECTS

E-Inventory Management System

- Implemented project on .NET Framework using Master Page Web Form to manage information of Users in Inventory and enhanced User Interface using Properties and Events of ASP.Net Toolbox.
- Included JavaScript Libraries & CDN Links of J Query, Bootstrap, Font Awesome, Popper and Data Tables for effective functionality.
- Established database connection with Microsoft SQL Server to perform CRUD Operations on User Data stored in the database.
- Usage of C# and its Built-In Methods & Properties to implement the back-end logic to the project.

Tourism Website

- Responsive and Dynamic Tourism Website for clients to get the details regarding their tour. Information Form seeking clients their details and providing them information regarding payment, destinations etc.
- Microsoft SQL Server to store the Client Information into the database.
- C# Methods & Properties to provide further back-end logic to the Tourism Website.

EDUCATION

Bachelors of Computer Applications
Guru Gobind Singh Indraprastha University
CGPA – 8.79 / 10.00

2018 - 2021

TECHNICAL SKILLS

Language : JavaScript, Python, C#, PHP, HTML, CSS

Framework : Bootstrap, jQuery, .NET, React

Databases : MySQL, MS SQL Server

Analytical : Power BI, Tableau, Excel Spreadsheet

o UI/UX Designing o Analytics o Market Research o Client Relationship Management o PowerPoint
